## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 15, 18, and 20 objected to because of the following informalities:  
they each depend from a canceled claim. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Donner, US Patent 5,141,372. See figures 3-10. A hinge assembly, the assembly comprising a first hinge leaf (20 or the capped shaped member at the end of pin 22) hingedly connected to a second hinge leaf (the other of the selected first hinge leaf) by a pivot pin 22, the pivot pin being immovably mounted in one hinge leaf and being rotatably mounted in, and being axially withdrawable from, the other hinge leaf, and hinge pin retention means at 57 associated with said other hinge leaf for preventing axial withdrawal of the hinge pin therefrom, the hinge pin retention

means having hinge pin engagement means movably mounted on said other hinge leaf for movement between first and second positions, the engagement means including a spherical surface 59 of a given radius seated in an annular groove 61 of a curved section, the curved section having a radius of curvature the same as said given radius so as to permit rotation of the hinge pin but prevent any axial movement of the hinge pin relative to said other hinge leaf, and in its second position being spaced from the hinge pin to permit its axial withdrawal from said other hinge leaf.

***Allowable Subject Matter***

4. Claims 2-4, 6, 8-11, and 13-25 are allowed (assuming the above claim objections are corrected).

***Conclusion***

This action is non-final.
